

Caroline Sorto

One year Old Teacher

This will be Caroline's 2nd year teaching at MMS. After finishing school for medical billing and coding, she found even more joy in being a mom of three boys. In her free time, Caroline and her husband Wilder enjoy family vacations to the beach with their boys, and when that's not an option they enjoy the outdoors with family and friends whether that be on the ball field or by the creek.

In the past Caroline has had the privilege of participating in mission work in various places and countries, but is currently more than overjoyed to share the love of Christ with the children in her classroom daily.
