

Corey Veil

Floater, STEAM Teacher

This will be Corey's 2nd year at Montreat Morning School! Corey graduated from NC State University with a BS in Biological Science with a concentration in Human Biology. Since moving to western NC in 2011, she has worked as a chemist, microbiologist, and molecular technologist. She and her husband, Theo have two boys: Mika and Paul.

As a family, they enjoy cycling, hiking, camping, and traveling. Her interests include cooking, art, music, and photography. After being a substitute for MMS, she realized she had a passion for education, especially STEAM, and loves working with kids.
